

Delegation Name: Zimbabwe

Ambassador Name: Aslı Ece Kuray

We are in a time where conflict is popping up everywhere around us whether it's international or internal, in a time where trust between countries is at an all-time low, in a time where countries would rather take the lives of innocent civilians instead of finding non-violent outcomes.

We, Zimbabwe, a previously colonized country know the hardships of these conflicts and understand what happens when trust and proper connections aren't properly established between countries and between civilians and their government.

We believe that hardships shouldn't be solved with brute force but rather international partnerships that help us **navigate uncertainty through mutual trust**. So I invite all of the delegates gathered in this conference hall to solve crises by thoughtful agreements and to find mutual understanding points instead of unnecessary violence, **as Zimbabwe we are ready to engage and find solutions for the world's crises**.

Thank you.
