

Delegation Name: China

Ambassador Name: Doruk Ege Özgülşen

Dear delegates, Student Officers, Advisors, and the Executive Committee of the Turkish International Model United Nations,

I would like to preface this speech by saying that it is a **great** honor to serve as the ambassador for the delegation of China in TIMUN 2022.

Many of the issues faced by our modern world stem from economic, political, and social instabilities. The recent lack of global political stability, caused by increasing military tensions spanning around the globe, has had a significant impact on governmental institutions, political affairs, and the overall social integrity of states, consequently leaving many of them vulnerable to all forms of social and humanitarian issues. Whether it be in the Middle East, or at the very doorstep of our country, issues like foreign-backed militias have also become **key** contributors to political instability, damaging people and states alike.

Thus, in a time of such major political turmoil, it should be of utmost importance to ensure **safety and order**, upholding this year's theme, "Securing Post-Conflict Peace".

As a dominant state in both the Middle East, Africa and East Asia, our aim is to fully resolve global concerns like environmental degradation, cross-border terrorism, trade disruptions within international networks, and deteriorating healthcare, all of which are issues that we will be debating upon in the committees in the upcoming days.

We, as China, hereby **wholeheartedly** declare that we are willing and ready to cooperate with our fellow nations, not only in the hopes of defending and protecting our country in an ever-changing political

landscape, but also lending a helping hand in securing and maintaining **global peace** for all, in an era brimming with constant conflict.

As the delegation of China, it has been our ever-lasting goal, from the very start, to achieve both national and international peace. We hope that we'll be able to contribute in accomplishing this goal throughout this conference.
