

Delegation Name: The Republic of Kenya

Ambassador Name: Fenne Stevens

Honourable staff, delegates, and chairs,

The delegate of Kenya is looking forward to discussing a myriad of important issues and finding productive resolutions.

The delegate is honoured to be here and delighted to announce that Kenya is being represented in the majority of the committees present today.

Although Kenya is tackling our own internal issues, including East Africa's worst drought in decades, we are prepared to work hard to making the world a safer place for all.

Kenya aims to do this by encouraging other member states to take stricter precautions to **prevent** experiences with terrorism. The delegate believes a **similar** focus should be put on small arms and light weapons as compared to nuclear weapons. We aim to further **cut down** on accidents to create a safer world for our youth.

The delegate is looking forward to a fruitful debate!

Thank you
