

Delegation Name: Palestine

Ambassador Name: Aslihan Naz Kavaklı

Your Excellency the Secretary-General, Honorable Chairs, Fellow Delegates,

The Delegation of Palestine is extremely elated to be a part of the 29th annual THIMUN conference. The Delegation of Palestine realizes the importance of post-conflict peace and all our delegates are ready to discuss and debate in order to come up with the most beneficial resolutions for all members of the United Nations.

We believe that the MUN committees of this annual conference are extremely crucial for our and the UN's wellbeing. Palestine is working hard to protect its civilians at all costs and is strictly against the use of armed weapons against civilians therefore we believe that with the contribution of our delegation, we will acquire well written resolutions regarding this topic.

Some other critical topics that we aspire to work on are the Islamic State Groups in the middle east as well as the marginalization of the minorities of the middle east. As a part of the middle east, we appreciate our delegate's presence in this conference. As Victims of cross-border terrorism, we are content to see that the UN is giving importance to this subject. We believe that no country should interfere, especially with armed weapons, to other countries' internal affairs. Thus, our delegate is ready to work upon this subject.

The delegation of Palestine realizes the importance of the comfort of its citizens. We also realize that for the comfort of our citizens, health and environment are two important aspects. We will make sure to contribute to the subjects regarding water poverty, food insecurity, also climate-driven, vector-borne diseases.

Most importantly, we are going to do everything to establish the international consensus in the Gaza Strip, all our delegates will be working immensely to bring peace and happiness to Gaza. We are extremely worried to see civilians hurt and we are happy to see that the UN is motivated to find a solution to an important problem. Our delegation strongly encourages a permanent solution which will benefit our citizens as soon as possible.

The Delegation of Palestine is looking forward to hearing and debating other delegations' opinions on this and other issues.

Thank You.
